Our communities are in a health crisis related to the heroin epidemic. According to the Centers for Disease Control and Prevention, Ohio had the second highest number of drug overdoses nationwide in 2014, and in 2016 Ohio continues to lead in accidental overdoses in the nation. This community discussion “Parking the Ambulance at the Top of the Cliff” will give information on how to save lives. The focus will be intervention of this disease, from a patient, family and community perspective and what long term recovery requires.
